Announcements & Events related to Transcom's priorities: MBHP is recruiting for its advisory council.

Update on survey development: The committee met to frame the task; a draft will be available next time. Clarified that we will not be inviting all who are surveyed and thus will need to make this clear in our outreach materials.

Preparation for meeting with Mass Rehabilitation Commission: Members shared experiences of MRCs current collaboration with DMH around ACCS and growth curve needed. In addition to these services, MRC's potential connection to Transcom is around its current role supporting the development of the healthcare workforce. The meeting will explore MRC returning to its former level of participation at Transcom.

Discussion of Transcom participation list and who is missing: Members discussed improving the balance sought of voices from substance addiction, mental health, providers, and funders. The group discussed "coalition retention" briefly and Kirsten offered a resource. For members to know each other, we agreed it would be helpful to have a list of current active members and what they do.
